Ultrasound-Guided Nerve Blocks

Course Description

This is a 1-day intensive ultrasound workshop offered to anesthesiologists who wish to learn the BASIC skills of ultrasound guided nerve blocks.

Objectives

1. At the end of this introductory course, participants would have acquired a thorough knowledge of the imaging and needling techniques for nerve blocks in the following regions of the body:
 - ◆ Interscalene
 - ◆ Supraclavicular
 - ◆ Femoral
 - ◆ Popliteal
2. Supervised hands on scanning on live models
3. Opportunity to use and handle ultrasound machines.
4. Hit-the-target practice on phantoms.
5. Knowledge evaluation with immediate feedback.

Target Participants

- ◆ Anesthesiologist (Consultants, Senior Registrars, Registrars & Specialists).
- ◆ Senior Anesthesia Residents.
- ◆ Experienced Anesthesia Nurses & Technicians.
